Immunization Health History Form All Students Must Complete and Sign

Name:			
Last	Fi	rst	Middle
Date of Birth: Month/Day/Year	Phone: ()	D#:
(TO BE COMPLETED BY COMPLETED BY NEW APPLICANTS ONLY)			
The General Assembly of the State of Tennessee mandates that each public or private postsecondary institution in the state provide information concerning measles, mumps, rubella, varicella, and hepatitis B infections to all students matriculating for the first time. Tennessee law requires that such students complete and sign a waiver form provided by the institution that includes detailed information about these diseases. The required information below includes the risk factors and dangers of these diseases as well as information on the availability and effectiveness of vaccines for persons who are at-risk for these diseases. The information concerning each disease is from the Centers for Disease Control and the American College Health Association.			
The law does not require that students receive vaccination for enrollment. Furthermore, the institution is not required by law to provide vaccination and/or reimbursement for the vaccine.			
Hepatitis B (HBV) Immunization Hepatitis B (HBV) is a serious viral infection of the liver that can lead to chronic liver disease, cirrhosis, liver cancer, liver failure, and even death. The disease is transmitted by blood and or body fluids and many people will have no symptoms when they develop the disease. The primary risk factors for Hepatitis B are sexual activity and injecting drug use. This disease is completely preventable. Hepatitis B vaccine is available to all age groups to prevent Hepatitis B viral infection. A series of three (3) doses of vaccine are required for optimal protection. Missed doses may still be sought to complete the series if only one or two have been acquired. The HBV vaccine has a record of safety and is believed to confer lifelong immunity in most cases.			
I hereby certify that I have read this in	nformation and I hav	ve had the entire	series of the Hepatitis B vaccine.
I hereby certify that I have read this in	nformation and I hav	ve elected not to r	receive the Hepatitis B vaccine.
I hereby certify that I have read this in process of receiving the complete thr			ive the Hepatitis B vaccine and/or I am in the cine.
Massles Mumns Buballa (MMP)	and Varicalla	mmunization	ie.
