Notes: "Other" consists of Alaskan Native, American Indian, and Asian or Pacific Islander. "Multiracial" consists of any students that selected more than one race. If a student identified their ethnicity as Hispanic, they appear in the "Hispanic" column as well as the column for their race designation, pursuant to Department of Education reporting guidelines. Retention rates are inter-institutional within the public system.

Workforce Investment Act

The federal Workforce Investment Act of 1998 (WIA) offers a comprehensive range of workforce development activities through the Tennessee Career Centers and the American Job Center network. The goal of WIA is to increase employment, retention, and earnings of participants, and in doing so, improve the quality of the workforce to sustain economic growth, enhance productivity and competitiveness and reduce welfare dependency. Oversight for the system is the responsibility of a Local Workforce Investment Board whose membership is a majority of private sector representatives. Dyersburg State Community College acts as Administrative Entity and Fiscal Agent for Local Workforce Investment Area 12, which serves the counties of Benton, Carroll, Crockett, Dyer, Gibson, Henry, Lake, Lauderdale, Obion, Tipton and Weakley. The numerous available workforce development activities provided throughout northwest Tennessee are designed to benefit job seekers, dislocated workers, new entrants to the workforce, employers, and

Programs and services available through WIA include:

*The confidence limits are based on the assumption that the questions contributing to each scaled score are a sample from a much larger set of possible questions that could have been used to measure those same skills. If the group of students taking the test is a sample from some larger population of students eligible to be tested, the confidence limits include both sampling of students and sampling of questions as factors that could cause the mean score to vary. The confidence limits indicate the precision of the mean score of the students actually tested, as an estimate of the "true population mean" - the mean score that would result if all the students in the population could somehow be tested with all possible questions. These confidence limits were computed by a procedure that has a 95 percent probability of producing upper and lower limits that will surround the true population mean. The population size used in the calculation of the confidence limits for the mean scores in this report is 286.

Reports based on a sample of fewer than 50 test takers are representative of the performance of **that sample only**. Reports based on **fewer than 50 test takers** should not be considered representative of the larger group of like students, and inferences or generalizations about the larger population or subgroup **should not** be made based on such small samples.

Statement of Vision
