Standard 6: TN Job Market Placement Rate

The Tennessee Job Market Graduate Placement standard is designed to provide incentives for community colleges to continue to improve job placement of graduates.

Dyersburg State Community College

Maximum Points: 10
Points Earned: 10

Methodology Update: The original methodology approved by THEC in May 2020 for calculation of the TN Job Market Placement rate focused on non-University Parallel associate degree graduates. Success is defined as working full-time at least one quarter after graduation with no unemployment claims. In May 2022, THEC approved the updated methodology that shifts focus away from a graduate’s necessity to file for unemployment to graduates being continuously employed. The continuous employment approach encompasses more of the mission of community colleges by expanding the scope to all community college graduates awarded a technical certificate or associate’s degree. Success is defined as those graduates who are employed, full-time or part-time, at least three of the four quarters after graduation. The continuous employment approach focuses on the ability of graduates to obtain and maintain employment rather than the need for graduates to file for unemployment.

Scoring Update: The updated methodology focuses on growth in the rate attained by an institution rather than to the rate achieved in a particular year. The scoring table will remain the same as was approved in May 2020; only the means of rate calculation for scoring purposes is altered.
